

To whom it may concern,

Please do not let Air 1 go off the air by allowing LPFM stations to take priority over our local stations. Air 1 strengthens me everyday with it's positive messages and music. I listen to it non stop throughout the day and would be devastated without it. I can listen to find out local news, weather and traffic. Air 1 benefits my community by providing an alternative to today's music which does not promote messages of good morals and ethics. Air 1 is a unique service to the community since it is one of the only family friendly stations around. Please do not take it away.

Thank you,

Molly McMillan
